

Rodgers Gives Own Story for First Time in Simply-Phrased Epic of Sea and Air

HONOLULU REJOICES AS CREW OF PLANE ARRIVES

Noisy Welcome Given Flyers at Destination of Interrupted Dash to Pacific Isle

(Continued from First Page)

It was Commander Rodgers who directed the lightning strike which

UNFAIRLY SPIRIT

When the water supply can low, it was this flight commander who showed his men how to distill the seawater, using part of the seaplane's frame for firewood, and who made a plane sail by ripping from one of the plane's wings to catch rain in a tropical shower.

Commander Rodgers it was, who rigged a jury mast, using part of the wing fabric to make his sail and navigated the unwieldy sea plane to within fifteen miles of the island of Kauai, making eventual rescue certain.

The four other men in the seaplane's crew told all their things and Commander Rodgers' resourcefulness and courage. When they were low spirited, he told stories of men who had faced worse perils and survived. His natural good humor kept them going, as he said in his own personal statement "as if they had been getting a full ration every day."

AVIATORS SLEEP AS WORLD AWAITED NEWS

(BY GALE AND ASSOCIATED PRESS) LIHUE (Island of Kauai, T. H.) Sept. 11.—Five aviators, exhausted by a nine-day mid-ocean battle with fate, were welcomed home yesterday after the details of an unfinished flight which now is history—the attempted nonstop jump from San Francisco to Honolulu.

Their greeting in Hawaii was not the one planned for them. Had they completed their scheduled flight, they would have landed on the waters of Pearl Harbor, where a dirigible port was to greet them, and would have received the plaudits of the thousands of Honoluluans, who had planned to see the finish of the flight. Instead, forced by the submarine R-4, the flyers sloshed ashore only an hour before midnight at Nawiliwili Harbor with only a comparative few to meet them.

REST NEEDED

Technically the flight was completed, for the five men did not make their planned landing grounds on this island. They had been absent 21 hours when rescued.

Rest and undisturbed sleep were the first need of the quintet. They were taken to the little hotel here and for an hour kept busy answering questions. Then Navy physicians examined them, and the aviators were confident that rest and quiet will bring complete recovery. For that reason the aviators were directed to go at once to the Navy hospital at Pearl Harbor, where they will receive the necessary care.

THE PN-9 NO. 1, the seaplane

Rest and undisturbed sleep were the first need of the quintet. They were taken to the little hotel here and for an hour kept busy answering questions. Then Navy physicians examined them, and the aviators were confident that rest and quiet will bring complete recovery. For that reason the aviators were directed to go at once to the Navy hospital at Pearl Harbor, where they will receive the necessary care.

FOOD PROBLEM

The food question was one of the troubles of the trip. The men had what was looked upon as plenty of food for the past ten days, except today, but physicians who examined them were confident that rest and quiet will bring complete recovery. For that reason the aviators were directed to go at once to the Navy hospital at Pearl Harbor, where they will receive the necessary care.

THE PN-9 NO. 1, the seaplane

was drifting westward about two knots an hour. Members of the crew, who were the submarine R-4 had not sighted the seaplane yesterday, they should have continued to drift to Kauai, and landed near the mouth of the Waimea River.

All the men agreed that the expert navigation of Commander Rodgers had been an important factor in the safety of the flight. When the gasoline gave, the skipper commander succeeded in making a splendid "three-point" landing in a northern direction from the U.S.S. Arrowhead. On landing, at once cut loose the starboard gear of their two motors, and dropped them overboard to light on the hull which was tossing about on a rough sea. The aviators were examined today, and were found apparently undamaged.

Commander Rodgers' father, Captain Rodgers, a retired naval officer, had written a letter to the skipper of the submarine R-4, which read: "Please do not worry about my son. He is in good health and is doing well."

When picked up, the seaplane was drifting westward about two knots an hour. Members of the crew, who were the submarine R-4 had not sighted the seaplane yesterday, they should have continued to drift to Kauai, and landed near the mouth of the Waimea River.

All the men agreed that the expert navigation of Commander Rodgers had been an important factor in the safety of the flight. When the gasoline gave, the skipper commander succeeded in making a splendid "three-point" landing in a northern direction from the U.S.S. Arrowhead. On landing,

at once cut loose the starboard gear of their two motors, and dropped them overboard to light on the hull which was tossing about on a rough sea. The aviators were examined today, and were found apparently undamaged.

When the seaplane was towed into Nawiliwili Harbor last night the five men smiled through their thick beards and declared themselves "glad to be ashore." Commander Rodgers for one was content with his newly acquired adornment, for when he first stirred in his sleep this morning, he requested Lieutenant-Commander Kaufman, navy physician, to take pictures of the crew and himself before they shaved him.

Dr. Kaufman ordered him back to bed, assuring him that the photo-takers still would be waiting when he and his men were all thoroughly rested.

WANTED TO FLY ON

One of Commander Rodgers' last instructions before going to sleep was Sheriff Rice said today, "If with the planes I can fly to Oahu tomorrow." Navy officers hearing of the request commented: "Another of his determinations we'll have to dissuade him from."

Newspaper men were permitted to view what is left of the PN-9 No. 1 this morning, being escorted

WANTS HONOR FOR RODGERS

Hero's Name Is Suggested for Honolulu Flying Field

BY A. P. NIGHT WIRE

HONOLULU, Sept. 11.—Suggestion that Honolulu's new airport be named "Rodgers Field" in honor of Commander John Rodgers of the PN-9. No. 1, was renewed today by A. W. Van Valkenburg, an official of Honolulu Chapter, National Aerautical Association. Commander Rodgers, Mr. Van Valkenburg asserted, has done more to advance commercial aviation in the islands than any other man. He added that it never had been his intention to name the airport Rodgers Field as a memorial, but instead as a tribute to the aviator.

Members of the seaplane crew were reticent over reasons for failure of the ship to complete the preliminary tests of the seaplane were conducted. They admitted that the actual flight conditions differed from those under which the preliminary tests of the seaplane were conducted. The seaplane traveling at a speed greater than that used in the preliminary tests.

The four subordinate members of the seaplane crew had nothing but the heartiest of praise for Commander John Rodgers, the skipper commander. It was the flying optimism and good humor they declared, which kept up their spirits through the long days and nights in midocean.

HEAR "DOOM" TOLD

An unpleasant feature of their experience, the flyers said, was the radio static noise, which had given the effect that a conference of navy officials had given up hope for their rescue. One member of the crew declared, "that made me angry."

The seaplane was able to receive but not able to send radio messages after alighting on the ocean.

The seaplane still had some food aboard, emergency rations, but the airmen found it unpalatable.

The best of the food, given them for what was to have been a two-weeks' flight, they consumed the first two days, expecting hour by hour that they would be rescued by one of the vessels searching for them.

SLEEP AND TALK

On the tail of a kite.

Commander John Rodgers, hero of the PN-9 No. 1, is shown here being taken along the string of kites fifteen years ago off Santa Barbara. He was the first naval officer to make the attempt. He was lifted 1000 feet above the sea. At that time he was a lieutenant on the U.S.S. Pennsylvania.

SKIES DARED ON KITE TAIL

Rodgers Revealed as First Naval Officer to Go Aloft in Novel Test on Coast Fifteen Years Ago

Commander John Rodgers of the lucky-unlucky Hawaiian seaplane expedition is credited with being the first naval officer to go aloft on the tail of a kite.

On September 11, 1910, he was lifted 1000 feet above the sea in a kite string which the Navy was experimenting with.

Rodgers was the first of the five men to fall asleep after reaching his goals. His physicians heard him murmur just before he dropped off: "I'm going to ride this plane when it's time to go down."

White Commander Rodgers decorated his own part in the experiment, he said, and gave him hearty praises, and later regarded us about the surprises folks on shore would get when we arrived ashore.

Rodgers was the first of the five men to fall asleep after reaching his goals. His physicians heard him murmur just before he dropped off: "I'm going to ride this plane when it's time to go down."

It was that same determination which caused him to drift from the coast to Hawaii—which made the five aviators stay in the seaplane until it was beached on this island. By doing so they technically made it.

"He kicked us," said one of them, "though not once did he lose heart, and the sole purpose we had was to make him realize his mistake."

He joked about them when he awoke, and when we arrived ashore.

MRS. SEVERANCE
DIES IN EUROPE

Woman Prominent in Social Circles Succumbs
Took Active Part in Fund Campaign
Breakdown Follows Death of Husband in May

Mrs. Cordenio A. Severance, years of age, prominent social civic leader of St. Paul, died yesterday at Napa, Calif., many, according to a cable received by her sister-in-law, William F. Howard of 240 La Fayette Park Plaza.

Mrs. Severance and her son, Cordenio A. Jr., were well known in the social circles of Los Angeles and Pasadena, having made their winter home in South Pasadena for many years. Mr. Severance, who died last year, was a widely known attorney, during 1921 was head of American Bar Association.

SUFFERED BREAKDOWN

Following the death of her husband Mrs. Severance suffered breakdown from which she recovered. On the advice of physicians she went to Europe, one of the famous health resorts of Europe, but her condition usually became worse.

She was born in

Carlton College, in New Minn. She later attended M. Ley College in Massachusetts and found two-year course in the University of Switzerland.

During the World War she was at the head of the women's committee of the Liberty Loan in the States, Minnesota and South Dakota and Minn. She was also active in state politics, being on the Women's Executive Committee.

For two years at the time of death Mrs. Severance was the trustee of Wellesley College.

Her husband was a member of the law firm of Davis, Weller, Severance, Frank Keller, law partner of Mr. Severance, and Mr. Severance's son-in-law, that he would cause structures to have the body turned to St. Paul for burial.

INDIANS TO MEET

The sixth annual meeting of the Geneva (Ind.) California Tribe of the Limberlost will be held today at Scott's Adobe Ranch, Montebello.

First Photographs from Flood-Stricken Washington Village

Fourteen People Were Killed; a Transcontinental Railway Service Disrupted and heavy property damage sustained when a wall of water resulting from a cloudburst in the hills near by, rushed down upon Wenatchee, Wash. day. The force of the flood carried the tracks of the Great Northern railway a distance of 300 feet from their roadbed, and moved a two-story frame hotel 60 feet from its foundations. In addition to the killed, many were injured and several hairbreadth escapes recorded. Little Fannie MacDonald (middle with nurse) was taken unharmed from wreckage 16 hours after the flood devastated the village. Photo at left shows National Guardsmen searching wreckage for bodies. At right is photo of the Spring Water Hotel after it had finished its 60-foot journey on the tide. These are the first photos of the disaster to be published in Los Angeles. (P. & A. photo.)

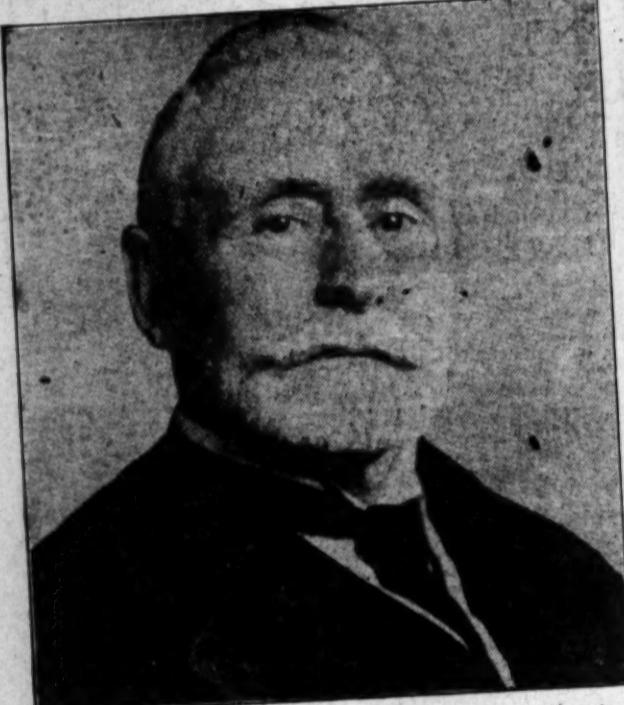

Successful Battle Against White Plague in Los Angeles is made possible through allocation of funds from Community Chest, which will stage its second annual appeal November 9-19. Romaza Avila (above) is being cured at a Chest agency.

Nationally Famous Elephant-Small Boy Combination was affected here without delay this morning with the arrival of the Ringling Brothers and Barnum & Bailey circus, which pitched its tents at Prager Park, Washington street and Grand avenue, for a four-day stand.

The Most Thrilling Adventure in the life of Susan Gilder, 6, occurred yesterday when she became lost from her mother at Third and Broadway. Officer Gilder, pictured above with Susan, proved a haven of refuge and a tower of strength during the search for the missing child.

New President of the League of Nations is Senator Raoul Dandurand of Canada, who was elected by delegates to the sixth assembly of the League at Geneva, Switzerland, last Monday. He is one of Canada's foremost statesmen. (P. & A. photo.)

A Small Cyclone Struck National Capital last Sunday, tore the roofs from a row of dwellings and went its way without injuring anyone. Photo shows mother with babe which was taken from one of the homes hit by the twister. (P. & A. photo.)

One of the World's Oddest Jobs is that of London's official water taster, a chemist in the employ of the Metropolitan Water Board, whose duty it is to test by taste samples of all the water that is used by Londoners. (P. & A. photo.)

Forty-eight Million Dollars in Bullion was unloaded at Croydon Field, England, recently from a German Junker all-metal plane which had transported it from Germany. It was a payment from Germany to England under the Dawes plan. Photo shows unloading of treasure. (Kadel & Herbert photo.)

Shenandoah Disaster Caused no Change in plans for the Marine Corps transcontinental flight from Quantico, Va., to San Diego in two Martin bombers. Above are four of the officers who will man planes. Left to right—Gunner Wodarczyk, Capt. Campbell, Capt. Presley and Maj. Rowell. (Kadel & Herbert photo.)

Navy Craft Which Rescued P.N. No. 1 from the Hawaiian Islands Thursday, is pictured here. The submarine R-4 as it appeared on the surface of the ocean, was violating the submarine ban. Hunt regulations made it illegal to pay a fee to the crew of the submarine. (Kadel & Herbert photo.)

SALT LAKE ST.
TO CHICAGO

William Wrigley
With Lane Before
East; Pair Repe

Frank "Lefty" O'Doul, who is

leaving, and Bill Piercy, star Bee

ing, have been sold to the

Chicago White Sox. The two

stars went to the Chicago White

Sox for cash only, no players be

ing involved in the deal, which

was consummated yesterday by

Lane and Piercy.

Wrigley, Jr. Wrigley leaves for

Chicago today.

The Salt Lake players added \$75,-

000 to the coffers of Bill

Lane's Salt Lake club treas

ury, \$30,000 being

paid for O'Doul and \$25,-

000 for Piercy.

Both players

were in the big leagues, coming

to the Salt Lake club from the

Red Sox. The Red Sox

and O'Doul from the

New York Yankees in one of the

big leagues.

O'Doul, who originally haled

from Miami, first attracted at

the national pastime by

pitching with the Vernon Tigers.

The New York Yankees purchased

from the Bengals, only to

trade him over to the Sox.

He came to the Red Sox this spring

and sent Rudy Kallo

to the Red Sox.

Piercy, who was

originally from

Massachusetts, was

recently traded to the

Chicago White Sox.

He was a good eye at the

baseball trade and became

one of the league's best hitters, as

YANKEE NET STARS RETAIN DAVIS CUP

SALT LAKE STARS SOLD TO CHICAGO NATIONALS

William Wrigley Completes Deal With Lane Before Leaving for East; Pair Report in Spring

Frank "Lefty" O'Doul, who is leading the Coast League in wins, and Bill Piercy, star Bee right-hander who turned in his straight victory by turning back the Vernon Tigers yesterday, have been sold to the Chicago Cubs, it was announced last night by Bill Lane, owner of the Salt Lake club. The stars went to the Chicago well. Last year O'Doul batted .322, finishing in a tie for a point behind the leader.

STARTED AS HURLER
O'Doul, who now plays right field, started baseball as a southpaw pitcher with the San Francisco Seals. He was picked up by the Yankees, then farmed back to the Seals, where he had another good season and was recalled by the New York club. Hugelmeyer and O'Doul never did get along too well, it is said.

Hughes was asked to make an offer of O'Doul but Piercy declined, believing himself too good a pitcher to turn to the outfield. O'Doul wasn't given much of a chance to pitch by Hugelmeyer, who soon sent him to the Red Sox. The Red Sox acquired O'Doul from the Yankees in one of the deals between the American and National Leagues.

Piercy, originally haled from the Bronx, first attracted attention in the national pastime by with the Yankees. He was with the York Yankees purchased from the Bangs, only to return to the Red Sox.

In the Red Sox this spring Piercy had a bad start, but Rudy Kallio and Frank O'Doul, who had been season Piercy has won 10 games and lost eight, for a total of .707. He is ranked ninth in the league's leading five.

By A. P. NIGHT WIRE

By A. P. NIGHT WIRE
NEW YORK, Sept. 11.—Paul Berlenbach, light-heavyweight champion, the hard-swatting kid from Astoria, is still the lightweight champion of the world. Paul knocked out his challenger, Jimmy Slattery, in the eleventh round of the fifteen-round scramble at the Yankee Stadium tonight.

Jimmy Slattery, the much-heralded "pound for pound" man, seemed to be one of the great hustlers in the boxing game. It

was evident from the start that Jimmy was scared off the moment he faced the rugged Dutchman, although he did show some courage after the fourth round and was more than holding his own until Paul kicked him in the tenth round. Had Jimmy on the floor three rounds ago, the determined Berlenbach dropped him with a left hook to the chin for a count of eight, and when Jimmy arose he nailed him again for a count of eight. When Jimmy went down for the third time they had swung

(Continued on Page 11, Column 1)

ILLINOIS' representatives will be Larry Lyle, Al Espinoza and Billy McIlroy. The Pacific Northwest, Nebraska, Iowa, Southern California and several other States will be represented.

BY A. P. NIGHT WIRE

CHICAGO, Sept. 11.—Some of the best efforts in the country were summed among the list of sixty-six stars who are qualified for the championship tournament of the Professional Golfers' Association of America, here the 21st to 26th inst.

Walter Hagen does not have to qualify because of holding the championship. The metropolitan district has the largest list of entrants, including Henry Cucul, Mike Brady, Leo Diegel, Gene Sarazen and Tommy Harmon, Jr.

The second largest delegation,

from New England, will include Willie Ogg, Tom Dean and Joe Stein.

Illinois' representatives will be Larry Lyle, Al Espinoza and Billy McIlroy. The Pacific Northwest, Nebraska, Iowa, Southern California and several other States will be represented.

BY A. P. NIGHT WIRE

PHILADELPHIA, Sept. 11.—America's tennis supremacy is secure for another year. The United States clinched its hold on the Davis Cup, emblem of this supremacy, today when R. Norris Williams, captain of the defending forces, teamed with the young New Yorker, Vincent Richards, to give France's gallant challengers, Jean Borotra and Rene La Coste, their third straight decisive defeat in the challenge round series.

Before a gallery of 8000 fans at the Germantown Cricket Club the American pair, a new doubles combination, cup play, turned back the Frenchmen in straight sets, 6-4, 6-3, in a match that was one-sided in spite of the apparent closeness of the scores.

THREE VICTORIES

Coupled with the singles triumphs yesterday of William T. Tilford over Borotra and William L. Johnson against La Coste, if gave America the three victories necessary to decide possession of the cup.

The two remaining singles matches tomorrow will be Tilford against La Coste and Johnson against Borotra. All will be played as scheduled, but their outcome will have no effect on the championship.

Todays' triumph assured the United States her sixth successive season of Davis Cup supremacy.

It was the ninth victory this country has scored in twenty international tournaments for the famous trophy since 1920.

France's plucky pair faced fresh opposition today in Williams and Richards, and together they found it more difficult to solve than that which they had met in the semi-final yesterday in the singles. The effort of those bitterly fought open-with rare skill and confidence.

RICHARDS AND WILLIAMS VICTORIOUS IN DOUBLES

Jean Borotra and Rene La Coste Bow to American Pair in Straight Sets, 6-4, 6-4, 6-3

BY A. P. NIGHT WIRE

PHILADELPHIA, Sept. 11.—America's tennis supremacy is secure for another year. The United States clinched its hold on the Davis Cup, emblem of this supremacy, today when R. Norris Williams, captain of the defending forces, teamed with the young New Yorker, Vincent Richards, to give France's gallant challengers, Jean Borotra and Rene La Coste, their third straight decisive defeat in the challenge round series.

Before a gallery of 8000 fans at the Germantown Cricket Club the American pair, a new doubles combination, cup play, turned back the Frenchmen in straight sets, 6-4, 6-3, in a match that was one-sided in spite of the apparent closeness of the scores.

NEVER HEADED

Richards and Williams broke through Borotra's service in the first game of the opening set and were never headed after that. They had to check several spectacles during the game, notably in the second set, when Borotra and La Coste pulled up to 4-4 after trailing at 1-5, but the end was in sight.

It came finally in the ninth game of the third set, when Richards forced a tie-breaker through for the deciding points.

Williams, veteran American leader, was the more spectacular of the two players on the defending side. He was also the more erratic.

Where he gave his team many points with dazzling volleys at the net, he also was guilty of many errors. In the final set, however, he was dominant, acting on his side of the net until he willed toward the end.

BY A. P. NIGHT WIRE

PORTLAND (Ore.), Sept. 11.—Los Angeles finally stopped the Portland winning streak after it had reached six straight games, four of them from the Angels, by winning the second half of today's double-header, 9 to 6. Five Portland errors in the first three innings helped, and though he started with a seven-run lead, Wright finally had to give way to Doc Crandall, who saved the game.

In the first game Max Rachas, for Portland, pitched his second consecutive shutout in five days. The score is 6 to 6 for Port.

O'HARA WHIPS SCHLOCKER

Teddy Takes Decision Over Local Scrapper in Wild Bout at Hollywood Legion Stadium

BY A. P. NIGHT WIRE

Teddy O'Hara and Joe Schlocker staged one of the wildest slugging bouts ever seen at Hollywood, last night, O'Hara taking a decision after ten rounds of furious mauling that had a packed house hanging on the chandeliers from sheer frenzy. Schlocker was hopelessly outclassed in every department but gameness. He won two rounds after being practically knocked out early in the fight and, although knocked down half a dozen times, he always came charging back like a wounded bull and fought the slugging Teddy off his feet.

Not a slow round was put on first inning sending to Schlocker during the whole bout. Schlocker was a good boxer, but he couldn't stay away from O'Hara's piles.

Driving left and he always got the worst of it. In the eighth round, Joe worked on his own stomach for most of his success, but he had to catch out for Teddy's swishing left and that slowed his attack.

O'Hara started right out in the

PIRATES AND SENATORS BOTH AHEAD BY SEVEN FULL GAMES

BY A. P. NIGHT WIRE

CHICAGO, Sept. 11.—A stern chase is a long chase. Connie Mack's trailing Athletics discovered today when, after they had downed the Yankees, 3 to 2, the Senators, leaders in the American League, snatched a 5 to 4 victory over the Red Sox in the final frame. The Athletics re-

tained their seven-game handicap in spite of their victory.

John McGraw's Giants progressed in their stern chase after the Pirates, knocking off the Dodgers, 4 to 2, while the St. Louis Cardinals humbled Pittsburgh, 5 to 3. The margin between the clubs was reduced to seven games.

BARNES LEADS MACFARLANE

BY A. P. NIGHT WIRE

PHILADELPHIA, Sept. 11.—Jim Barnes, British open golf champion, amassed a lead of five holes over Willie MacFarlane, American title-holder, in the first eighteen holes of the unofficial world's championship match today at the Philmont Country Club.

Barnes has seldom played better golf than he did today while MacFarlane was far below best form. He paid frequent visits to bunkers and his iron shots lacked his usual delicacy.

The second eighteen holes will be played tomorrow at the White Marsh Valley Country Club.

HELEN JACOBS WINS

Maiden Captures Girls' National Tennis Title For Second Consecutive Time

BY A. P. NIGHT WIRE

PHILADELPHIA, Sept. 11.—For the second straight year, Miss Helen Jacobs, of Berkeley, Cal., won the girls' national tennis championship at the Philadelphia Cricket Club courts today when she defeated Miss Francis, of Orange, N. J., in two love sets. The same

feat in the singles Miss Francis repeated in the final of the girls' doubles championship. Miss Francis and her partner, Miss Virginia Hilliard, of the Philadelphia Cricket Club, beat Misses Mary Morrissey and Miss Louise Siclum of Boston at 6-2.

But they were outmaneuvered in the next two and lost 6-4, 6-2.

They were beaten by Mrs. Molia Djuricich, Malory, former national women's champion, Miss Jacobs advanced to the final round of the Middle States championship for women by defeating Miss Edith Biggs, of Boston, and Miss Anne Townsend of Merion. In this match, which ended at 6-3, 6-2, Miss Jacobs bore the brunt of the labor for her

team. Miss Francis, the present girls' national indoor champion, was that is because Miss Jacobs had the assurance of watching the book ends, Manual Alonso and Capo, who came out after her de-

feats.

The other finalists for the Middle States doubles are Miss Elizabeth Ryan, of Canada, and Mrs. Marion Anderson, of Jersey City, New Jersey, who defeated Miss Molly Thayer of the Philadelphia Cricket Club and Miss Eleanor Sears of Boston, 6-2, 6-0.

Johnson and Zahn Receive Appointments

Take Places of Donons and Fitzpatrick

Take Made from Field of Twenty-nine

Spending the afternoon

Choosing candidates for the two

vacancies in the Council caused by

resignation of Councilmen

who are under investigation,

the City Council

met yesterday

and appointed Otto J.

Zahn to Down's place

in the C. U. C. I.

and Carl L. Jacobson to Fitzpatrick's place.

The Council

met again yesterday

only a few minutes,

and was unanimous for

Zahn's appointment.

Councilmen Hall alone

voted against the Jackson appointment.

The Council's action was

followed by much cheering of the

audience in the

Senate office and in session as

committee of the whole.

THE BALLOT FOR ZAHN

In the appointment in the

Councilmanic District, which

was represented in the Coun-

cil by Down, Zahn was

the only one who voted for him.

The Councilmen

then left the Presi-

dency office and ad-

vanced to the chamber.

The formal appointmen-

tions were made at once and

the session adjourned.

LOS ANGELES (Loco Ahng-hay-ahs)

MEMBER OF THE ASSOCIATED PRESS

The Associated Press exclusively supplies to
the use for reproduction of all news credited to it
or not otherwise credited, while the paper and also
published here without charge.

The Times states of all items to be accurate
in every published statement of fact. Readers who
discover any important inaccuracy or statement
which fails to conform to the intentions of the Edi-
torial Department to the strict.

WELL WORTH IT
Raising a family is an expensive hobby,
but, as a rule, well worth the money.

TURN OF THE TIDE
Here is a man who swam for two hours
with his arms and legs both tied. Possibly
the tide was in his favor.

DON'T GET CAUGHT
Parents should be very careful not to
let son and daughter catch them reading
the awful books they buy.

FAST WORKER
The oil man who met, wooed and wed
a Los Angeles girl in three hours certainly
must have been a gusher.

FORTUNATE
Fortunately an American can have an
opinion concerning the European situation
without knowing a thing about it.

THE IRREPRESSIBLE
Possibly the War Department most
craves a Maxim silencer massive enough
to control the muzzle of Col. Mitchell.

A N ADMISSION
Some of the picture houses celebrated
Admission Day by charging prices and a
half for admission. This is the union scale.

SHORTHANDING
Before the days of the motion picture
and the radio the magazine editors asked
for descriptions which were graphic. Now
they demand more action and descriptions
which are only paragraphic.

THE BIG MONEY
It is said that Dempsey figures on leaving
Wall Street and entering the brokerage
game in Wall Street. Jack has heard that
the big money was in Wall Street and is
going after it in a dress suit.

WITH NO INSURANCE
In the old days when practically everybody
owned his furniture they used to say three
moves were as bad as a fire. But nowadays it
probably is the landlords who complain that
three tenants are worse.

SOME WALLOW!
Oliver Henry Wallop, a Wyoming
rancher, has inherited a British sardom as
a result of the death of his brother, the
Earl of Portsmouth. Well, it can hardly
help being a good thing for any aristocracy
to have American Wallop put in it.

THIRTY NOTE FOR BOYS
Co-eds at Berkley have taken the
pledge to abstain from candy, to get eight
hours' sleep at least five nights a week and
to accept no weekend entertainments. That
program ought to help a lot of boys to
work their way through school.

CLEFTED ARTIST
A southern newspaper tells of a musical
rendering a delightful hors d'oeuvre on the
saxophone. Heretofore all pickles have
always been played on the piccolo. This
sounds like propaganda to encourage the
introduction of the saxophone into the
home.

PROSPERITY
The first half of 1925 has seen more
automobiles made and sold in the United
States than ever before, according to the
latest figures. As an indication of our
general prosperity that isn't so bad. And as
an indication of the growing amount of
employment and plain, everyday happiness
that the average citizen is able to grasp it
is even better.

THE PINCH HITTERS
It was hardly expected that there
should be a pinch hitter for Babe Ruth, but
one was called into the game the other day
and celebrated the occasion by poling out
two home runs. Then Babe himself
was called into action and he drove out a
home run on his own account. These three
runs were the only ones made by the team.
They were circuit clouts delivered when
none was on a base. The national game is
full of oddities. That is why it is the
national game.

AMONG THE HORSESHEES
Fresh laurels have been heaped upon
the noble pite which bear testimony to the
wonders of Glendale. The local champion
horseshoe pitcher has just carried off su-
preme honors in the great tournament at
the State Fair. The iron men of Glendale
are wildly enthusiastic over the victory of
their leader. For more than three years
he has fought valiantly for this State
championship and now he brings home the
bacon to the music of the fife. Horseshoe
pitching may not be as dangerous as polo
or as strenuous as surf-boating, but it has
a grip upon a large and worthy citizenship
in Glendale, Long Beach, Pasadena and other
prosperous communities, where the State
championship is deemed as good as anything
Benny Leonard ever brought home.

A LIL'S WELL!
Success snatched from the claws of
defeat and the jaws of death; rescue when
even the hope of rescue was dead; such is the
glorious document of flight of the
seaplane PN-3 from the coast of California to
the Hawaiian Islands. And in the timely
rescue of Commander Rodgers and his gallant
crew the whole nation rejoices.

Nine days overdue, battered by wind and
sea but still aloft the seaplane was
manned to a landing Thursday night on one
of the islands of the Hawaiian group. The
crew had been without food for four days,
vessel after vessel loomed on the horizon,
only to disappear; aircraft circled overhead,
but floated away with the clouds; all the horrors of castaways on the wastes
of the boundless waters were endured; but
still the gallant captain and his crew carried on.
The men were well selected for the
part they were to play in the drama of air
and sea. And the happy ending of what
appeared to be a tragedy of the seas
proves again that truth can possess all the
dramatic elements of fiction.

Indeed, no writer of fiction would have
selected such material for his plot, for until
the thing actually occurred, it seemed
so improbable that even the most credulous
would have turned from it with a yawn
of boredom and disgust.

These men started from the California
coast to reach the Hawaiian Islands. The
honor and prestige of the Navy were involved.
They could have sought safety by descending
some hours sooner, when adverse winds and tropical storms had
checked their flight and their fuel supply
was almost exhausted. But they decided to
take a chance—for the honor and the
glory of the service. It was hazardous,
fanatical; but there is a trace of hazard
and fanaticism in the brain cells of every
hero.

Their reward came when they were able
to step from their plane on the coral shores
of Nawiliwili. They had dared, and fortune
again favored the bold. And congratulations
are due to the Navy as well as to the
fliers; for it was one of the scouts of the
Navy that finally located them and towed them to safety. The voices of the
critics who seized on the apparent loss of
the seaplane to malign the heads of the
Navy Department are now silenced by the
shouts of rejoicing that echo from coast
to coast. Another romantic chapter has
been written in the annals of the American
Navy, a chapter that will give new and
higher ideals to the personnel of the department.

The flight was not a failure. Its
successful termination is all the more notable
because the experience of the PN-3 serves
to chart out the dangers of the air that
must be avoided. The limitations of the
seaplane are better known today than
yesterday. The Navy will build newer and
better. Other planes will follow the trail
marked out by this pioneer and will complete
the flight in the air. As messengers of
safety they will become an integral part of
our coast defense; for, when they can
cover such vast expanses of ocean, no hostile
fleet could hope to come within as
much as 5000 miles of our coast and escape
detection.

Despair and gloom faded from the Navy
like a fog pierced by a dazzling sun when
the news of the successful landing was
flashed by radio across sea and land; and it was eminently fitting that Friday should
have been a day of general rejoicing. We
all seem to have a part in the splendid
achievement; for the Navy belongs to us
all; and it is a part of us; and we have today
a better understanding of the heroic courage
and perseverance that mark the gallant
defenders of the Stars and Stripes almost
as a race apart, as a breed capable
of performing what to others would be
referred to as the impossible. The traditions
of the Navy are not belied by the present
generation. It is manned by worthy descendants
of heroic sires.

To the public the hazard of the flight was
not appreciated until the seaplane was lost.
But the dangers were fully known to Commander
Rodgers and his crew; and they deemed it a privilege to risk their lives in
the national service. Such is the spirit
that caused our common country to win its
place in the sun as a world power, and such
is the spirit that will successfully defend
it against enemies from without or from
within. We can say this morning with re-
newed confidence if not "All's well with the
world," at least "All's well with the brood
of the gray eagle."

THE HARD-COAL STRIKE
Some years ago the Congress appointed
a commission to inquire into the coal
industry, particularly that of Pennsylvania,
and gave it sufficient powers and means
for doing its work thoroughly and intelligently.
This action followed close upon
a strike and consequent warfare between
the owners and the miners. People in the
Eastern and Northeastern States along the
Atlantic had just been victimized by one
of those ever-recurring fights between
the operators and organized labor. Fuel to
heat homes during a cold and tempestuous
winter and to operate vast industries
that fed, clothed and housed millions of men,
women and children went off the market or
soared to unconscionable prices with the
result of unnecessary suffering and a stagnation
of business.

The fight raged about the anthracite
mines of Northern Pennsylvania. These
mines are owned by a few individuals,
companies and estates and near them have
grown up a number of large and prosperous
towns, in or near which the miners live.

"Figueron" is beautiful and expressive.
"Alvarado" and "Alameda" fit the golden
hills and sunset. "Pico" has tang and history.
But the word is out that some one who
is innocent of poetry would change
the name of "Figueron," because it is difficult
for tourists to spell. And yet that is
what the tourist comes for—something dif-
ferent.

It is recorded that a culprit was arrested
at Figueron and Ninth. But the officer had
trouble getting the intersection and dragged
his victim down to Flower to send in his report.

"Pasadena" is another name in a million.
But just where the millionaires managed
to take up the appellation, "Green street,"
for one of its choice arteries newly beauti-
fied is more than a cross-word puzzle.

"Santa Barbara" is appropriate to its setting.
But why it ran "State street" through
the middle to "disembowel" it of
enchantment is one of the dark secrets.

The Southwest is mellifluous in Spanish
and Indian names. Then why not glorify
our picturesque and historic surroundings?

A drab English name on a street running
in front of a Spanish or Indian home is as
appropriate as a pair of tennis shoes sticking
out from under a silk hat.

O'HOMAR!

A news item recalls that the great
library at Alexandria was destroyed by
Omar in the seventh century. The chances
are that he did it because they wouldn't
put his Rubaiyat in it, which was a burning
shame.

Buttin', Buttin', Who Gets the Buttin'?

(Protected by George Matthew Adams)

Just About It
by James J. Montague

THE MIGHTIEST MONARCH

A King, I admit, has a pretty fair time.
He has a quite comfortable throne.
A nice-fitting crown and unbound renown
And motors and yachts of his own,
Whenever he travels abroad through the land
He is hailed with tumultuous acclaim,
And when he comes home again,
He is received with tumultuous acclaim.
But back of all this sits the Omnipotent One.
Whose laws are unchangeable, Whose power is incapable
of human understanding—Who "plants his footstep in the sea and rides upon the storm." He will not be mocked.

LETTERS TO
The Times

Remember the Titanic

LOS ANGELES, Sept. 10.—[To the Editor of The Times:] The morning papers carry the announcement that the ill-fated Shenandoah is to be replaced by a new giant for the skies—a powerful dirigible which the Shenandoah would have been in the air in. We are given to understand that the Navy Department proposes to build an airship that will be powerful enough to buffet any storm it may encounter, and defy the elements at the very zenith of their might.

Years ago a man said he would
build a ship that would outride any
gale—that would rise triumphant
above the highest wave
which launch it would be
afloat upon the bosom of the Atlantic.

He built it and named it the Titanic.

He filled it with human beings and
set it afloat upon the bosom of the

Atlantic. He feared neither wind
nor wave. His was a ship that
could not be destroyed. But in the
darkness of the night, when the stars flickered over the calm
waters, the winds were lashed upon the deep—when
roar and feasting were at their height on the decks of that mighty,
inconquerable ship, the unexpected happened.

A mighty iceberg con-
fronted the floating palace of steel
and iron and in a few minutes

time that huge ship and treasure re-
posed at the bottom of the sea.

God has said: "I will not be mocked."

The Navy Department may build
a giant dirigible to replace the
Shenandoah—one that experts may
declare to be strong enough to
withstand adverse air currents or
cope with any assault by the ele-
ments. But it might be well to
remember the fate of the Titanic.

It might be well to recall the story
of the loss of the Titanic. It might be
well to call to mind the destruction
of Chinatown.

In his mad pursuit of power and achievement man is today defying the laws of God and nature.

He has covered the earth with
whirling wheels—he ignores the
laws of gravity and commands senseless
riders to fly through the air.

He has built a mighty dirigible
but back of all this sits the Omnipotent One.

Whose laws are unchangeable, Whose power is incapable
of human understanding—Who "plants his footstep in the sea and rides upon the storm."

He will not be mocked.

B. W. BLANCHARD.

Pig, Pig!

LOS ANGELES, Sept. 9.—[To the Editor of The Times:] "Pig, ooh, pig, pig, pig!" you feel in your bones.

It is quite uncomfortable as a child
to a ripe old age if they sit on a pig.

Knowledge alone won't save you
from being a pig.

One who knows the piggy bank
loaded is usually the one to sit on it.

Some wives set their children to

some hard learned to say "piggy bank."
They are big-hearted and good.

And let nature take its course.

After all, the only real longevity

is the privilege of the pig.

If nature didn't adjust the

think how many horse shoes

now are working on one horse.

A wise woman's method of

taming her is to take a

juvenile and

teach him to sit on a

horse.

And when he does

not sit on a horse

she takes him to

the pig pen.

She takes him to

the pig pen.

To save soap and to wash clothes more easily, add a few drops of oil of camphor to the water. Soak them for two hours in three gallons of cold water to which three tablespoonsfuls of Bobrick's Cloudy Ammonia has been added. This preparation works wonders.

The wise housewife makes her Christmas presents now, and avoids the Christmas Shopping rush.

Do not spoil the effect of an otherwise beautiful home, with draperies improperly made and draped. Call in Mrs. Phoebe Simank Brothers, V. Andike 7677—they will gladly call, show you samples and make suggestions. They are artists in upholstering and refinishing, and make most attractive slip covers.

To remove rust from steel use one part ammonia powder mixed with one part soap—rub well.

Butterfly wings—Cut a pineapple circle in half, lay on both leaf curved sides together; this makes the wings. Slice crosswise stuffed olives and arrange for spots on wings. Make a ruffled skirt and border. L. A. Cotton Cheesecloth of spines and feathers of curled celery. It's delicious and attractive.

The pears in the market now are delicious baked—just as you would bake apples only prick them with a fork instead of cutting off the tops.

"Let's go down to Mora's Grill and have a good feed!" said the hungry husband. "That won't make me mad," said the bride, "come on! It's 10^o West Market."

PLAN WATCH ON DRUGGISTS

Officers to Guard Against Prescription Deaths; Wolfrum Fale Hinges on Inquest

A campaign against careless druggists will be conducted as a result of the death of 4-months-old Josephine Villard, of 753 East Ninth street, in connection with whose death Chester Wolfrum, a pharmacist, is being held in the City Jail on suspicion of manslaughter.

Old cases of mistakes in filling prescriptions will be acted upon if persons having knowledge of them bring them to the attention of police, and sufficient evidence is found upon investigation, Assistant Captain of Detectives Bean, head of the police homicide squad, said yesterday. A strict watch upon druggists and pharmacists will be kept, so far as it is in the power of the authorities, and the co-operation of the public will be asked.

Witness, according to Capt. Bean, admitted substituting alophan, a drug containing strichnine, for calophen in a prescription for the Villard infant, saying he had not seen a sample of alophan. Police investigators say, is frequently used for children. Capt. Bean said yesterday that no man or woman, save those in the doctor's office, will be allowed to lodge a formal complaint of manslaughter will be taken pending the result of the inquiry.

Inquest into the death will be conducted today after the County Chemist and autopsy surgeon have submitted their reports to the Coroner. Both the vital organs of the child and samples of pills said to have been taken by her have been submitted to the chemist and autopsy surgeon.

According to Capt. Bean, an alophan pill of average size, said to have been substituted by the pharmacist, contains one-eighth of a grain of strichnine and one-twelfth of a grain of bella donna, both deadly poisons.

If the inquest verdict is that poison caused the child's death, a manslaughter charge will be issued against Wolfrum. Chief Deputy District Attorney Pitts stated yesterday.

The propaganda department of the Journal of the American Medical Association, in its booklets "Nostrums for Kidney Disease and Diabetes," gives reproductions from four different papers showing that the testimonials lauding certain kidney pills are decidedly humorous because in the same papers were recorded the deaths of those who had testified to the virtues of the nostrums.

If you would like this booklet, write direct to the American Medical Association, 888 North Dearborn street, Chicago, Ill.; it costs 25 cents.

Do not depend upon patent medicines for any disorder, no matter how glowing the testimonials may be. Have a thorough examination by your physician and go by his advice.

PATENT MEDICINES FOR KIDNEY DISEASE.

Mr. G.—Do not be misled by testimonials regarding patent pills for kidney disease.

Reforms to Prevent Filibuster Holding Up Legislation Demanded

HAIL DAWES BROADSIDES

Great Crowd Cheers Vice-President in His Attack on Senate Rules; Pleads for Support of People

(Continued from First Page)

greatest trainers of dogs in the world, he had trained over 100 of the great ones—Caruso among them. This community in time, should have one of the greatest grand opera organizations in the world. Great progress already has been made here particularly through the symphony orchestra, which has a distinguished reputation.

Beyond the subject of music, however, the Vice-President firmly declined to go. He expressed, "In common with every other citizen," admiration for the courage of Comptroller Hodges and the rest of P.N.-S. No. 1, and gratification over their rescue, but said he did not care to comment on the controversial part of his speech.

He did not care to discuss the personal affairs or conditions.

"As presiding officer of the Senate, it is my duty to do what I can to help the Senate, but with that duty only at this time," he said.

The impression should not be gained that the Vice-President is curt or forbidding in manner. The speaker, a tall man, who smokes a pipe as consistently, continuously and joyously as does Mr. Dawes could be successful in the role of a distant and haughty official.

He radiates an atmosphere of vigorous informality.

"Tell me about it," or "tell me about the Senate," is his favorite means of anticipation. He inquires from the newspaper fraternity, "What's new?" while smoking a pipe as consistently, continuously and joyously as does Mr. Dawes.

He did not care to talk of business affairs or conditions.

"As presiding officer of the Senate, it is my duty to do what I can to help the Senate, but with that duty only at this time," he said.

The impression should not be gained that the Vice-President is curt or forbidding in manner.

The speaker, a tall man, who

smokes a pipe as consistently,

continuously and joyously as does Mr. Dawes could be successful in the role of a distant and haughty official.

He radiates an atmosphere of vigorous informality.

"Tell me about it," or "tell me about the Senate," is his favorite means of anticipation. He inquires from the newspaper fraternity, "What's new?" while smoking a pipe as consistently,

continuously and joyously as does Mr. Dawes.

The speech in the Olympic auditorium last night concludes the present series of attacks on Sen-

ate procedure. Prior to the opening of Congress in November the Vice-President will renew his attacks in addresses in New York and other eastern population centers.

GREET FRIENDS

His final day yesterday was spent in receiving calls from officials and from personal friends.

The latter included childhood acquaintances and business associates. One individual, a cobbler on a railroad station platform, which Mr. Dawes had entered, passed a box of favorite tobacco from the Vice-President's hands and disappeared almost before greeting could be exchanged.

More of these people called him "Charlie" without explanation, however, the Vice-President firmly declined to go. He expressed, "In common with every other citizen," admiration for the courage of Comptroller Hodges and the rest of P.N.-S. No. 1, and gratification over their rescue, but said he did not care to comment on the controversial part of his speech.

He did not care to discuss the personal affairs or conditions.

"As presiding officer of the Senate, it is my duty to do what I can to help the Senate, but with that duty only at this time," he said.

The impression should not be gained that the Vice-President is curt or forbidding in manner.

The speaker, a tall man, who

smokes a pipe as consistently,

continuously and joyously as does Mr. Dawes.

The speech in the Olympic auditorium last night concludes the present series of attacks on Sen-

HIGH LIGHTS IN DAWES'S PLEA FOR REFORM OF SENATE RULES

Points emphasized by Vice-President Dawes in his plea for reform in the procedure of the United States Senate included the following:

I am not seeking trouble, but when I began to study the obligations of my job—to which I was not elected by the Senators, but by the people of the United States—I deemed it my duty to expedite, so far as my presiding officer is concerned, the business of the Senate.

Under the rule permitting unlimited debate one man can get up and talk on irrelevant subjects; he can talk until he drops at the expense of the people of the United States.

It is not the purpose of those advocating reform to prevent any man from being freely and fully heard, but to prevent him from thwarting a majority in its purpose to legislate.

One member of the Senate, by taking advantage of the rule permitting unlimited debate, can exert a power greater than the veto power of the President.

There is nothing new or revolutionary in this effort for reform of Senate rules. It is a nonpartisan question.

Senatorial courtesy is another name for Senatorial power. More than half of the Senate has not said anything about this fight. The Senators are waiting to see whether the Vice-President can arouse the people. I think he can.

Bring the pressure of your opinion upon your representatives in the Senate. Nothing can shake those men loose from the power they consider their personal prerogative except the power of public opinion.

You have heard that the Vice-President is like Don Quixote, tilting at windmills. Well, he is.

I am quoting a lot of Democrats, but don't think the Republicans are not fit, too. I recognize no party where the good of my country is concerned.

I am seeking no personal machine. I was not a candidate for Vice-President nor am I a candidate now to stay in my present office or to get another one.

is because under these rules there is personal power and prerogative in each Senator, which he will not willingly give up.

QUESTIONS UNDERWOOD

I will read what Senator Underwood said when speaking with me before an audience at Birmingham, Ala.:

"I had served with your permission for twenty years in the House of Representatives. I had been the leader of that body; I was responsible for the legislative conduct of a great party; and I had been talking until the drawbridge closed—a power which exists at the expense and for the purpose of thwarting the majority of the Senate in its constitutional right to legislate."

"I had served with your permission for twenty years in the House of Representatives. I had been the leader of that body; I was responsible for the legislative conduct of a great party; and I had been talking until the drawbridge closed—a power which exists at the expense and for the purpose of thwarting the majority of the Senate in its constitutional right to legislate."
